

## Crafty Tech Workshop

**Ages:** 7–14

**Duration:** 3 Sessions

**Session Length:** 1.5 Hours

**Schedule:** Wednesdays | 3:30–5:00 PM

**Project:** One complete Crafty Tech project

Designed for children who want to create a complete Crafty Tech project over three sessions, this workshop combines creativity, design, and hands-on building.

Each child selects a project with guidance from the instructor and brings it to life step by step using recycled and everyday materials. Along the way, children learn to see the creative potential in the world around them while developing problem-solving skills, spatial thinking, and creative confidence.

Perfect for curious makers who love to imagine, build, and create.
